

MOISTURE CONTENT AND LIGHTING REQUIREMENTS

APPLICANT/AGENT shall provide the following information:

1. _____
Job Address Lot/Parcel #

2. _____
Applicant Address Phone Email

Moisture Content Acknowledgement

I, the general contractor or owner-builder at the above noted address, in order to conform with the 2023 Oregon Residential Specialty Code (ORSC), Section 318.2, am notifying the building official that I am aware of the moisture content requirement of ORSC Section 318.2 and have taken steps to meet this code requirement.

Section 318.2 Moisture Content. Prior to the installation of interior finishes, the building official shall be notified in writing by the general contractor that all moisture-sensitive wood framing members used in construction have a moisture content of not more than 19 percent of the weight of dry wood framing members.

I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.

Energy Requirements Lighting Acknowledgement

I, the general contractor or owner-builder at the above noted address, in order to conform with the 2023 Oregon Residential Specialty Code (ORSC), Section N1107.2, am notifying the building official that I am aware of the energy lighting requirement of ORSC Section N1107 will take steps to meet this code requirement. At the time of final inspection, compliance with N1107.2 & 1107.3 will be met.

Section N1107.2 High-efficacy lamps. All permanently installed lighting fixtures shall contain high-efficacy lamps. The building official shall be notified in writing at the final inspection that the permanently installed lighting fixtures have met this requirement.

Exception: Two permanently installed lighting fixtures are not required to have high-efficacy lamps where controlled automatically or by a dimmer.

Section N1107.3 High-efficacy exterior lighting. All exterior lighting fixtures affixed to the exterior of the building shall contain high-efficacy lamps.

Exception: Two permanently installed lighting fixtures are not required to have high-efficacy lamps where controlled automatically.

High-efficacy lamps are defined as:

Compact fluorescent lamps, T-8 or smaller diameter linear fluorescent lamps or lamps with a minimum efficacy of:

1. 60 lumens per watt for lamps over 40 watts.
2. 50 lumens per watt for lamps over 15 watts to 40 watts.
3. 40 lumens per watt for lamps 15 watts or less. (ORSC N1102)

I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.
